## **Shin Chlorine**

*Organic Bleaching Powder*

### **Product Description**

*SHIN CHLORINE* is white powdered chlorine bleach for safe but excellent bleaching and disinfecting of linen, which can be found in hospital and institutional work.

*SHIN CHLORINE* contains a highly stable chlorine-releasing agent that does not decompose easily in storage giving consistently full bleaching capacity to attain spotless results.

### **Properties**

- Bleaches gently and disinfect thoroughly.
- Ease of application by adding dry to the wheel.
- High stability of bleaching agent requires no additional dosing. Thus preventing damage to textiles.
- Chemo-thermal disinfectant recognition.

### **Chemical Composition**

- Organic bleaching agent
- Builders.

### **Application**

Add *SHIN CLORINE* in bleaching operation according to the dosage guidelines given. Washing time usually between 7 to 10 minutes depending on degree of soiling and at pH value of 10.5 to 10.8. Best bleaching effect at water temperatures between 50 to 60 °C.

### **Dosage**

- \* Light to Medium Stain : 1 – 2 g / kg of dry wash
- \* Heavy Stain : 3 – 4 g / kg of dry wash

### **Precaution**

As with all chemical products, ingestion and eye contact is to be avoided. When handling product, normal work clothing covering arms and legs shall be worn.

### **Storage**

Store in a cool area and avoid contact with water. Containers of unused product must be kept close at all times.
