## **Shin Primary**

***Heavy Duty Low-Foam Detergent***

### **Product Description**

**SHIN PRIMARY** is a low foam heavy-duty synthetic detergent use for main line washing of all levels of soiling. Formulated by using a selection of high quality materials suitable for use on all kinds of textiles and at all temperature range.

**SHIN PRIMARY** is developed for thorough and quick removal of very stubborn soiling. Low foaming property caters for optimum chemical and mechanical action to which laundry is subjected to. This combination of action thus produces exceptionally high standards of cleaning results.

### **Properties**

- Good wetting surfactants.
- Low in lather for ease of use, without fear of chemical spilling in washing machines.
- Contains special optical brighteners for exceptional whiteness on polyester / cotton fabrics.

### **Chemical Composition**

- |                                  |                       |
|----------------------------------|-----------------------|
| * Anionic / Nonionic Surfactants | * Greying Inhibitors  |
| * Phosphates                     | * Optical Brighteners |
| * Carbonates                     | * Perfume             |
| * Silicates                      | * Auxiliaries         |

### **Application**

Add **SHIN PRIMARY** as a main wash product in washing operations according to the dosage guidelines given. Washing time usually between 8 to 15 minutes depending on degree of soiling. For heavily soiled fabrics e.g. pillow cases, Sport wear etc, it is recommended to add 1 to 2 grams per kilogram of dry wash of **SHIN EXTRA**.

### **Dosage Guide**

Light to Medium Soil	5 – 10 g / kg of dry wash
Medium to Heavy Soil	10 – 20 g / kg of dry wash

### **Precaution**

As with all chemical products, ingestion and eye contact is to be avoided. When handling product, normal work clothing covering arms and legs shall be worn.

### **Storage**

Store in a cool and dry area.
